## General instructions

You may use Form 400-UT to determine if you paid enough estimated North Dakota income tax by the payment due dates and, if you didn't, to calculate the amount of interest you must pay on the underpayment or late payment. The dates used on Form 400-UT and in these instructions are for calendar year filers. Fiscal year filers should substitute corresponding dates.

### Federal estimated income tax requirement.

Do not complete Form 400-UT unless you were required to pay estimated federal income tax for the tax year. To determine if you were required to pay estimated federal income tax for 2000, see the 2000 Federal Form 2210.

## Instructions for Part 1

Following are descriptions of the exceptions to the regular computation of underpayment listed in Part 1. If one of them applies, check the applicable box.

### Exception A: Qualified farmer (4th quarter payment required)

This exception applies if you qualified as a farmer for federal estimated income tax purposes in 2000 and you were required to pay estimated federal income tax for the 4th quarter due on January 15, 2001.

### Exception B: Federal annualized income installment method

This exception applies *only* if you actually used the annualized income installment method to calculate the amount of your underpayment and penalty for federal estimated income tax purposes for 2000.

**Attach a copy of the federal annualized income installment method worksheet (from Federal Form 2210) showing the amounts you computed for federal purposes.**

### Exception C: Federal 4th quarter exception

This exception applies if you did not have to make the 4th quarter estimated federal income tax payment due on January 15, 2001, because you filed your 2000 federal income tax return and paid the remaining federal income tax due by February 1, 2001.

### Exception D: Part-year North Dakota requirement

This exception applies if you were a nonresident of North Dakota, or you moved into North Dakota during 2000, and you did not receive income subject to North Dakota income tax until after April 15, 2000. **Attach a statement describing your situation.**

## Instructions for Part 2

### Line 7

If you checked one of the exceptions in Part 1, enter on this line the appropriate amount(s) as follows:

- If **Box A** was checked, enter the amount from line 6 in the 4th quarter column. Enter zero in the first three columns.
- If **Box B** was checked, enter the amount of estimated North Dakota income tax that would have been due by each payment due date had it been based on the amount of estimated federal income tax that you calculated to be due by the same date under the federal annualized income installment method.
- If **Box C** was checked, enter 25% of the amount on line 6 in the 1st, 2nd and 3rd columns. Enter zero in the 4th quarter column.
- If **Box D** was checked, the amount to enter in each column depends on when you first received income from North Dakota sources in 2000. If you received the income after March 31 and before June 1, 2000, enter one-third of the amount on line 6 in the 2nd, 3rd, and 4th quarter columns. If you received the income after May 31 and before September 1, 2000, enter one-half of the amount on line 6 in the 3rd and 4th quarter columns. If you received the income after August 31, 2000, and before January 1, 2001, enter the amount from line 6 in the 4th quarter column.

### Line 8

Enter the amount of estimated tax paid and income tax withheld for each quarter. Unless you can show otherwise, one-fourth of the total amount withheld is deemed to have been withheld by each payment due date. If you elected to apply an overpayment from your 1999 North Dakota return to your 2000 estimated tax, enter the overpayment in the 1st quarter column; however, if you had attached a statement to your 1999 return requesting the overpayment to be applied to another quarter, enter the overpayment in the appropriate column.

## Instructions for Part 3

Interest of 12% per year is charged on an underpayment or late payment of estimated tax. Interest accrues from the due date of the payment to the earlier of April 15, 2001, or the

date the estimated tax due is paid in full. In the case where an overpayment is applied to offset an underpayment, the overpayment is considered to have been applied as of the payment due date for the quarter in which the overpayment occurred.

In some cases, you may find it necessary to compute the interest on a separate worksheet, in which case you should skip lines 16(a) through 16(d) and enter the separately computed interest on line 16(e) in the appropriate column. **Attach your worksheet to Form 400-UT.**

For purposes of computing interest, the amount paid for a particular quarter must be applied first to the amount due for that quarter. If the total amount paid exceeds the amount due, the excess must be applied to offset an outstanding underpayment, if any, from a previous quarter, starting with the earliest underpayment. In addition, in the case of a late payment, the interest on line 16(e) must be computed on the amount due on line 7 less any tax withheld included on line 8.

### Line 16(a)

Except for a late payment or where an underpayment is offset by a subsequent quarter's overpayment, enter April 15, 2001. If there is a late payment and the amount of the payment equals or exceeds the amount of estimated tax due, enter the date of payment. If an underpayment is fully offset by a subsequent quarter's overpayment, enter the payment due date for the quarter in which the overpayment occurred. In other cases, more than one date may apply and it may be necessary to compute the interest on a separate worksheet, in which case you should skip lines 16(a) through 16(d) and enter the separately computed interest on line 16(e) in the appropriate column. **Attach your worksheet to Form 400-UT.**

### Line 17

If there is an **overpayment** on line 8, Form 37-S or line 16, Form 37, the amount to be refunded will be reduced by the amount of interest due on Form 400-UT. If there is a **balance due** on line 17, Form 37-S or line 24, Form 37, include the amount of interest due on Form 400-UT in your check or money order. If there is no overpayment or balance due on your individual income tax return and if the amount of interest due on Form 400-UT is at least \$5.00, enclose a check or money order for the amount of interest due on Form 400-UT with your return.
